# AIR

---

The energy produced by the combustion of the biomass is transmitted to the air by means of a high-efficiency exchanger and it is propelled through a fan to the room to be heated.

Ecoforest products are designed in such a way that they meet the aesthetic and energetic needs for each home with an easy, fast and economical installation.

## AIR

L'énergie produite par la combustion de la biomasse est transmise à l'air ambiant à travers un échangeur haute performance. L'air est propulsé par un ventilateur.

Les produits Ecoforest répondent aux besoins tant aux niveaux énergétiques qu'esthétiques et s'adaptent à tous types d'habitations avec une facilité d'installation et d'utilisation.

---

## MOON

### Technical specifications / Caractéristiques techniques

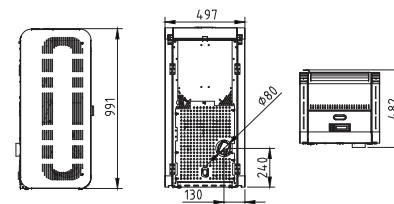

Power / Puissance: **7kW**  
 Performance / Rendement: **88%**  
 Tank / Réservoir: **11kg**  
 Consumption / Consommation: **609-1522 gr/h**  
 Autonomy / Autonomie: **18h -7h**  
 Weight / Poids: **78kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Cast iron burning pot / Panier perforé fonte  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest

## VIGO II

### Technical specifications / Caractéristiques techniques

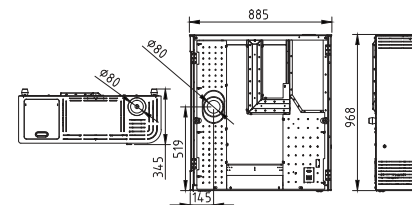

Power / Puissance: **9,5kW**  
 Performance / Rendement: **85%**  
 Tank / Réservoir: **16kg**  
 Consumption / Consommation: **855-2138gr/h**  
 Autonomy / Autonomie: **19h-7h**  
 Weight / Poids: **115kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Cast iron and vermiculite fireplace / Isolation foyer vermiculite  
 Cast iron burning pot / Panier perforé fonte  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest

## CÍES

### Technical specifications / Caractéristiques techniques

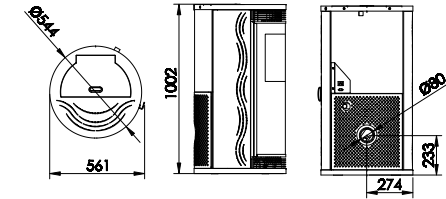

Power / Puissance: **10kW**  
 Performance / Rendement: **90%**  
 Tank / Réservoir: **20kg**  
 Consumption / Consommation: **850-2126gr/h**  
 Autonomy / Autonomie: **24h-9h**  
 Weight / Poids: **105kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Cast iron burning pot / Panier perforé fonte  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest

## PARIS

### Technical specifications / Caractéristiques techniques

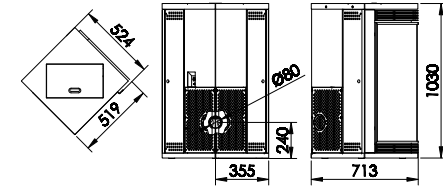

Power / Puissance: **10kW**  
 Performance / Rendement: **91%**  
 Tank / Réservoir: **20kg**  
 Consumption / Consommation: **841-2103gr/h**  
 Autonomy / Autonomie: **24h-10h**  
 Weight / Poids: **110kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Cast iron fireplace / Foyer en fonte  
 Stainless steel burning pot / Panier perforé en acier inoxydable  
 High efficiency aluminium exchanger / Echangeur aluminium haute performance  
 No need for cleaning heat exchange system / Système d'échangeur sans entretien  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest  
 Tablet / Tablette

## LONDON

### Technical specifications / Caractéristiques techniques

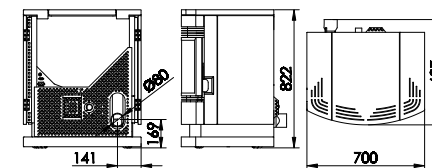

Power / Puissance: **10kW**  
 Performance / Rendement: **86%**  
 Tank / Réservoir: **20kg**  
 Consumption / Consommation: **841-2103gr/h**  
 Autonomy / Autonomie: **24h-10h**  
 Weight / Poids: **140kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Stainless steel burning pot / Panier perforé en acier inoxydable  
 Cast iron fireplace / Foyer en fonte  
 High efficiency aluminium exchanger / Echangeur aluminium haute performance  
 No need for cleaning heat exchange system / Système d'échangeur sans entretien  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest  
 Tablet / Tablette

## ECO III

### Technical specifications / Caractéristiques techniques

Power / Puissance: **12kW**

Performance / Rendement: **85%**

Tank / Réservoir: **30kg**

Consumption / Consommation: **1080-2701gr/h**

Autonomy / Autonomie: **28h-11h**

Weight / Poids: **126kg**

Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Stainless steel fireplace / Foyer en acier inoxydable

Cast iron burning pot / Panier perforé fonte

High efficiency aluminium exchanger / Echangeur aluminium haute performance

No need for cleaning heat exchange system / Système d'échangeur sans entretien

Transportation wheels / Roulettes intégrées

Vacuum cleaning system / Vacuum cleaning system

Multiple safety systems / Multiples systèmes de sécurité

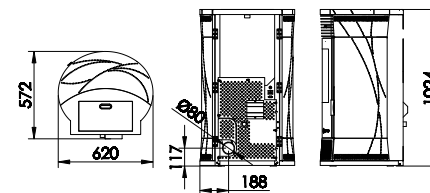

Self and distinguished electronics / Electronique exclusive Ecoforest

Tablet / Tablette

## ATENAS

### Technical specifications / Caractéristiques techniques

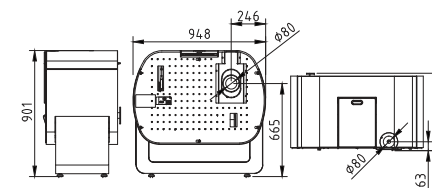

Power / Puissance: **14kW**  
 Performance / Rendement: **87%**  
 Tank / Réservoir: **25kg**  
 Consumption / Consommation: **1232-3079gr/h**  
 Autonomy / Autonomie: **20h/8h**  
 Weight / Poids: **118kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Cast iron burning pot / Panier perforé fonte  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest

## TOKIO

### Technical specifications / Caractéristiques techniques

Power / Puissance: **12kW**

Performance / Rendement: **88%**

Tank / Réservoir: **30kg**

Consumption / Consommation: **1044-2609gr/h**

Autonomy / Autonomie: **29h/11h**

Weight / Poids: **139kg**

Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Stainless steel fireplace / Foyer en acier inoxydable

Cast iron burning pot / Panier perforé fonte

High efficiency aluminium exchanger / Echangeur aluminium haute performance

No need for cleaning heat exchange system / Système d'échangeur sans entretien

Vacuum cleaning system / Vacuum cleaning system

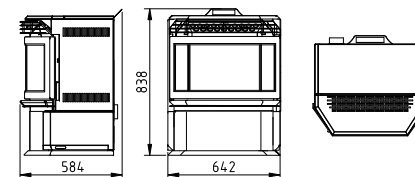

Multiple safety systems / Multiples systèmes de sécurité

Self and distinguished electronics / Electronique exclusive Ecoforest

Tablet / Tablette

## ECO I

### Technical specifications / Caractéristiques techniques

Power / Puissance: **13,5kW**  
 Performance / Rendement: **85%**  
 Tank / Réservoir: **32kg**  
 Consumption / Consommation: **1216-3039gr/h**  
 Autonomy / Autonomie: **26h-11h**  
 Weight / Poids: **105kg**  
 Gas out diameter / Diamètre de sortie de fumées: **80mm**

### Includes / Inclus

Multifuel / Polycombustibles  
 Cast iron fireplace / Foyer en fonte  
 Stainless steel exchanger / Echangeur en acier inoxydable  
 Stainless steel burning pot / Panier perforé en acier inoxydable  
 Vacuum cleaning system / Vacuum cleaning system  
 Multiple safety systems / Multiples systèmes de sécurité  
 Self and distinguished electronics / Electronique exclusive Ecoforest
